FREE**

Thermaflex[®] LINIMENT GEL

DIRECTIONS FOR USE:

For temporary relief of muscular soreness, stiffness or swelling, caused by exposure, overwork or exertion. Apply liniment sufficiently to cover the affected area and gently massage liniment into the application area. Do not wrap if applied vigorously. The natural extracts and oils in this product do not require wrapping and will increase the circulation to the application area.

Thermographic Effects Of Thermaflex Liniment Gel

CAUTION:

Keep out of reach of children. For external use only. Do not wrap tightly or apply heat to area. Do not swallow. Do not apply to irritated skin; if excessive irritation develops, discontinue use. Individuals with sensitive skin may experience a tingling sensation or redness after application and may prefer to wear gloves. This product is a counter-irritant and as such increases local circulation to aid in the relief of inflammation in underlying or adjacent tissues. Discontinue use if irritation persists and consult a veterinarian. Wash hands, thoroughly, after use. Avoid contact with eyes or mucus membranes. Do not smoke or eat while applying. Keep away from fire, sparks and heated surfaces.

NOT INTENDED FOR HUMAN USE.

ACTIVE INGREDIENT: menthol 4.0%, methylsulfonylmethane (MSM), plant extracts of calendula and rosemary, oil of cajuput (melaleuca leucadendron), other ingredients include: alcohol, water, thickeners, benzyl nicotinate, FD&C Yellow #5 and FD&C Blue #1.
