- Maintains long-lasting moisture balance
- Antibacterial & Antifungal to help prevent infection

15 fl oz (444 mL)

ABSORBINE®

The Horse World's Most Trusted Name®

Absorbine® Hooflex® Liquid Conditioner

is an easy to apply form of the original Hooflex Ointment. It creates a breathable barrier of mineral oil and neatsfoot oil to promote proper moisture balance in the hoof. Hooflex Liquid Conditioner's active ingredients condition the coronary band, hoof wall, frog and sole so that the hoof can absorb shock without cracking. Hooflex Liquid Conditioner makes an excellent show ring dressing to condition and leave a satin shine.

HARD, CRACKED HOOF WALL AND HEEL

When cracks occur on the hoof wall and heel, it is generally due to excessive dryness. Apply Hooflex to maintain pliability. Used regularly, Hooflex will provide the moisture balance your horse's hooves need to stay healthy.

HARD SOLE AND FROG

The frog is the shock absorber which, when pliable helps relieve the stress of heavy impact on the leg bones, tendons and foot. Apply Hooflex directly to frog and sole to help maintain pliability.

CORONET

Nature intended the coronary band, seat of hoof growth, to be relatively soft and flexible. Help maintain this condition by brushing on Hooflex Liquid Conditioner around the coronet frequently.

DIRECTIONS FOR USE

Brush Absorbine Hooflex Liquid Conditioner on hooves at least twice a week. Some horse people prefer to massage the coronet after application to stimulate growth. **Be sure hooves are clean before applying.**

CAUTION: Keep out of the reach of children. For external use only. Do not apply to irritated skin. If excessive irritation develops, discontinue treatment. Avoid getting into eyes or on mucous membranes. For animal use only.

ACTIVE INGREDIENTS:

PETROLATUM, NEATSFOOT OIL, LANOLIN, TURPENTINE, PINE TAR, ROSIN, CHLOROXYLENOL, 1.5%.
